Sales insights where you need it

Save time searching for the right partner contacts. Add custom properties to your Company and Deal records to see partner information directly within your CRM.

Build audience lists for targeting

Create an audience list of your partner's customers to target marketing and outreach campaigns —deliver the right message, at the right time.

Right message, right time

Run automated marketing workflows every time that a prospect becomes a partner's customer, to trigger a relevant action, at the right time.

Connect to the rest of your tech stack

Feed ecosystem insights to the rest of your tech stack so your Marketing, Sales Development, and Customer Success teams get insights within their daily tools.
